

Oklahoma Energy Producers Alliance

PO Box 1762
Ardmore, Oklahoma 73402
www.okenergyproducers.org

Oklahoma Energy Producers Alliance (OEPA) is a group of privately-held Oklahoma oil and gas companies concerned with protecting our rights as conventional vertical producers at the State Capitol and the Corporation Commission.

As many of you know, for the past two legislative sessions HB2177 which would have allowed long laterals in all geologic formations, not just shale, did not become law, thanks to many of you, many of the OEPA leadership and our lobbyist, Greg Piatt.

OEPA will concentrate on protecting vertical produced rights including, but not limited to:

- a) Support of legislation similar to HB2177, which includes our 63% amendment language, or
- b) Support of new modern legislation that fully addresses the issues of horizontal drilling through vertical units held by producing well(s).

OEPA's mission is simple:

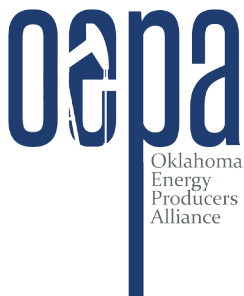

Hire a lobbyist to represent the rights of conventional vertical producers at the State Capitol and create a regulatory affairs presence at the Oklahoma Corporation Commission. It is our intent to be nothing more than this, and nothing less.

Join us! Help us protect our investment and our rights! We are asking for a three-year commitment, which should give us time to make significant progress on the issues.

OEPA suggests financial support based on production, payable annually for three years.	200bbls/d and over	\$5,000
	101bbl to 200bbls/d	\$2,500
	51bbl to 100bbl/d	\$1,000
	26bbl to 50bbl/d	\$500
	0bbl to 25bbl/d	\$100
