Oklahoma Energy Producers Alliance (OEPA) is a group of privately-held Oklahoma oil and gas companies concerned with protecting our rights as conventional vertical producers at the State Capitol and the Corporation Commission.

OEPA will concentrate on protecting vertical produced rights including, but not limited to support of new modern legislation that fully addresses the issues of horizontal drilling through vertical units held by producing well(s).

OEPA's mission is simple:

To represent the rights of conventional vertical producers at the State Capitol and create a regulatory affairs presence at the Oklahoma Corporation Commission.

Join us! Help us protect our investment and our rights!
